DESCRIPTION

The Senva CT1 Series comes in our newly engineered enclosure, making it the most attractive and quickest-installed CO2 sensor on the market. Designed with a selectable analog output and a variety of thermistor options allows flexibility on-site and ease of ordering. It mounts easily in any junction box, or it can be unobtrusively mounted directly to drywall using Senva's built-in drywall clamps. Save installation time and energy costs with this versatile product.

APPLICATIONS

- Controlling ventilation in response to occupancy
- Facilitating compliance with ASHRAE 62.1 standard for air quality
- Offices, conference rooms, and public assembly areas
- Greenhouses, hospitals, convenience stores, etc (dual channel version)

Drywall clamps make installation simple without a junction box
